

NANO AG TECHNOLOGIES, LLC
FACTORY DIRECT NANO SOLUTIONS

AGpHRx™

FOLIAR APPLICATION:

When using **AGpHRx™** in foliar sprays, the recommended rate is 16 ounces **AGpHRx™** per 100 gallons water.

PIVOT/IRRIGATION APPLICATION:

16 ounces per turn 3 times per year is recommended.

STORAGE & HANDLING:

Do not store product in direct sunlight. Protect product from freezing. Always check pH of tank mixture when adding **AGpHRx™** to tank to maintain optimum pH level. Keep out of reach of children. Harmful if swallowed. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush skin, eyes or clothing with plenty of water for at least 15 minutes.

NET CONTENTS & WEIGHT

Net Contents:	2.5 Gallon 9.463 liters
Net Weight:	9.0 lbs. per gallon (1079 grams/liter)

GENERAL INFORMATION:

AGpHRx™ is a cutting edge nano biocatalyst product that is designed to adjust pH and water hardness naturally in one-step more effectively than many conventional and mechanical application methods. This product works extremely well with various hardness and pH of well water. It makes water pH stable, chelates various dissolved minerals and helps blend various fertilizers and herbicides, which enhances the effectiveness and performance of the fertilizers and herbicides.

BENEFITS:

- Improves solubility of various fertilizers and herbicides
- Improves effectiveness of various micronutrients
- Helps spray-ability and improves absorption rate
- Reduces water hardness and lowers pH for long-term stability
- Helps maintain microbial activity in soil
- Uses less water per acre to spray various blends of chemicals
- Helps maintain carbon to oxygen ratio
- Mimics rain chemistry
- Produces rapid foliar and ground penetration
- Micro-encapsulated for long term reactive activity
- Helps loosen compacted soil and improves drainage
- Aerates soil to improve carbon to oxygen ratio
- Designed to blend with most herbicides, fertilizers and humic products
- Helps increase yield and lower cost per acre
- Removes and dissolves calcium deposits and rust from spray jets and supply lines
- Keeps lines free from buildups and clogs from various fertilizers and chemicals

USAGE DIRECTIONS:

Under foliar applications use 16 ounces of **AGpHRx™** per 100 gallons of water to adjust pH of spray tank mixture. For in-furrow application, use 8 ounces per acre. **AGpHRx™** can be applied to all field and row crops. May be foliar applied by air or ground application equipment. For pivot/irrigation application, 16 ounces per turn 3 times per year is recommended.

MIXING INSTRUCTIONS:

AGpHRx™ should be added to tank first and then add water with sufficient agitation. A jar compatibility test is recommended when mixing with other products.
