**FIRST AID:**  
*Eyes:* Immediately flush eyes with plenty of water and continue for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention if irritation persists.

*Skin:* Flush affected areas with plenty of water. Get medical attention if irritation persists.

*Ingestion:* If this product is swallowed, do not induce vomiting. If vomiting occurs, keep head below hips to prevent aspiration (breathing) of liquid into lungs. Get medical attention immediately.

**Phosphorus Balancer 0-24-0** is designed with micro molecular technology (Microscopic Macro particles) that is designed to stay in suspensions and will not clog applicator spray nozzles. Absorption rate is 3 to 4 times higher than regular phosphorus based products. Phosphorous is one of the major elements essential for plant growth. Upon foliar application the phosphorous in **Phosphorus Balancer** can be taken up directly by the plant leaves and used by the plant.

#### DIRECTIONS FOR USE:

Shake or stir well prior to use.

#### APPLICATION RATE:

Use 28 to 36 ounces to 15 gallons of water per acre. Shake well before using. Rate is based on soil condition and type of crop. A soil test is advisable prior to application. Product can be foliar feed when intended target is four-six inches tall in order to maximize absorption by the plant. Product can be applied through the irrigation systems or tank sprayers. Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extensions publication, or apply according to recommendations in your approved nutrient management plan.
